

December 11, 1980

TO: E-2 FOREMEN, SUPERVISORS, AND SHIFT MONITORS.

SUBJECT: THE USE OF AIRLINE MASKS AND SCOTT AIR PAKS.

1. You MUST wear airline mask when the Bendix or Century Meter indicates the VCM concentration is > 5 or $< 1,000$ PPM.
2. You MUST wear Scott Air Pak if area is $> 1,000$ PPM.
3. Only necessary personnel should be in out-of-spec area.

It is your responsibility to follow this and to see that everyone else does.

Please review Operating Specification No. 145-A-1.

Submitted for typing 12/10/80.

GRIEVANCE NO. _____

GRIEVANCE REPORT

ME Dept 145 DEPT. 145 DATE OF GRIEVANCE 5-9-68

NATURE OF GRIEVANCE

Dept 145 is being discreminated against when they are not allowed workable, protective gloves as all other depts. have.

The Union request that this unsafe and unhealthy situation be remedied immediately.

Robert Bailey G/ Steward

STEP A Supervision Contacted

8-277 O.C.A.W.

STEP B

May 10, 1968

Two types of protective rubber gloves have been furnished to Department 145 employees, where needed, for years. Upon receipt of this grievance this matter was reviewed. The existing glove program continues to be adequate and, therefore, there is no need to change it.
