HYDE PARK, VERMONT

For Attention: Mr. K. H. Bahre - New York Date: June 21, 1951

Copy to: Mr. M. J. Massel Reference:

Subject: PHYSICAL EXAMINATIONS SALARIED EMPLOYEES

Our last instructions regarding physical examinations of salaried employees were that they were no longer required.

Mr. Massel feels that due to the Workmen's Compensation law relating to Occupational Diseases including Asbestosis passed at the last session of the Vermont State Legislature we should, as a matter of record for future information, again have all salaried employees examined periodically. If this procedure is decided upon shall we pay the costs of these examinations from our imprest fund account as was the previous custom or will they be at the expense of the individual employees.

D. J. Montgomery.
