

Paint is a good investment! Enough SWP Weathered* House Paint for the average small home costs less than \$45.

For the best looking house in your neighborhood INSIST ON **SWP** HOUSE PAINT... **IT'S WEATHERED***

1001 DECORATING IDEAS ... See the new Sherwin-Williams Paint and Color **STYLE GUIDE**. Ask your Sherwin-Williams Dealer to show you... or lend you... the big new Style Guide. Scores of large color photographs of beautiful rooms! Hundreds of authentic color styling suggestions!

How much is your home worth today? If it's like most houses, its value has probably increased greatly. Naturally you want to protect your investment, and that increased value. Naturally you want the best looking house in your neighborhood. For extra beauty and protection, your best buy is SWP House Paint because it is Weathered*.

*The Weathered process means that SWP is subjected to continuous testing in the laboratory and in the field for its ability to resist excessive loss of gloss, high dirt collection, uncontrolled chalking, checking and cracking,

rapid erosion, color fading. It must rate high against all these destructive factors before it is permitted to bear the Sherwin-Williams label. (And all Sherwin-Williams paint products must pass similar grueling tests.)

For that home of yours, the best house paint you can buy is your best investment. See your friendly Sherwin-Williams dealer nearby. (Refer to your classified telephone directory under "Paint.") He'll be glad to recommend a painting contractor, if you wish.

To get the most for your paint dollar, look for the famous "Cover the Earth" sign.
