ever realized that
r friends, or even
ur family might not
have adequate nursing service if it were not for the Nurse's Aide Corps assisting at the overcrowded hospitals? This is truly a most urgent need for the civilians of the Peninsula, and for the men at Fort Ord. Our wounded are returning in large numbers and it is a privilege to serve when that service means helping mend broken lives. Being a Nurse's Aide is giving an unselfish service to your family, your friends, and your country.

The course consists of 80 hours of work, one half of which is devoted to lectures, and one half to practical experience at the Peninsula Community hospital. Don't forget—register before June 4.

Restrictions on Alarm Clock Production Lifted

—WASHINGTON, May 15.—(AP)—Restrictions on production and distribution of spring-driven and electric alarm clocks and galvanized ware were revoked.

But WPB said it expected no substantial increase in production of either immediately.

The action merely allows more production whenever military contracts, materials and labor permit.

Production of alarm clocks is running about one-third the pre-war rate of 12,500,000 annually, and WPB said the pre-war rate might not be achieved until Japan is defeated.

Scarcity of steel sheet and manpower will prevent an immediate increase in production of galvanized ware.

Whittlesey to Speak Tonight At Carmel Class

Eben Whittlesey well known Carmel attorney, will be the guest speaker at Dr. Blanchard Steeves class in "Problems of the Coming Peace". His subject will be "Peace and the Race Problem".

The latter portion of the class period will be used for questions and discussion.

Whittlesey will speak at the Tuesday, May 15th, meeting of the class at 7:30, Sunset School, room 3. Everyone is cordially invited to attend.
