Dear Sirs,

PYROCLOR

Many thanks for your letter of the 27th October and for letting me have a copy of the descriptive brochure on Pyroclor.

Having read this and looked at the available literature on the constituent compounds, I have only one query that you might be able to answer. You say that under certain circumstances a canister type respirator should be worn and I should be pleased to know which of the various Siebe-Gorman Puretha Canisters you recommend for this particular product.

Yours faithfully,

(J. R. Bowker)
Regional Medical Officer

(For the attention of Mr. D. Wood)
