GERARD SWOPE
PRESIDENT

December 19, 1933

Dr. Alice Hamilton
School of Public Health
Harvard University
55 Van Dyke Street
Boston, Massachusetts

Dear Dr. Hamilton:

Thank you for having us in mind in writing
me your letter of December 14th, in regard to asbestos dust.

I have talked to Mr. Burrows, Vice-President
in charge of manufacturing, and he thinks your suggestion is
a good one, and, as before, we would like to retain you as a
consultant. Then, if you think it necessary in any situation
to engage the service of Dr. Drinker or anyone else, we will
be glad to have you do so, advising us at the time.

The various works where we are using asbestos
are at Schenectady, Bridgeport, York and possibly to some
extent at Meriden. You can find out about Meriden when you
visit Bridgeport, as it is not far away.

After you have made your study, we will be
glad to have your report.

Very truly yours,

Gerard Swope

GS:H

Dear Mr. Drinker:

*You might be planning out the
investigation and when I come back
we can talk it over and with Mr. Drinker.*

James
