Mr. H. W. McCulloch, Jr.
Shell Oil Company
624 South Michigan Avenue
Chicago, Illinois 60605

Dear Harry:

John Jacobsen of our Inorganic Division indicated that they will have available considerable still bottoms from the "soft," biodegradable-type alkylbenzenes.

By copy of this letter we are asking John to send you a sample.

Please keep us posted about your continued interest as we would like to supply your needs for this material.

Hope to have our Sub O - Sec. IX Round Robin on askarel chemical stability completed for our October 19 meeting.

Best regards.

Very truly yours,

Paul G. Benignus
