Subject: BHRC- CANCEL 5/29 conf. call (9 AM EDT)

Importance: High
To the BHRC Oversight Committee -

Please find attached the final "Briefing Addendum" document for the API Executive Committee and draft minutes from our call last week.

In discussions with Bill Frick this morning, he decided that this document should serve as the briefing/background information for the June 19 Executive Committee meeting. This alters the original plan of sending out an early, separate communication. Also, another briefing paper would be a duplication of what they saw in March, which is already attached to the Addendum.

Consequently, I am **canceling the Thursday 5/29, 9 AM (EDT) conference call** we had set up to review a new briefing document.

Thanks,
Lorraine
