Dear Harry:

Thank you very much for your letters of May 22 and 24.
Many of the suggestions that you made have been incorporated in the final draft of our comments to OSHA.

This final draft and a copy of a letter to all members of the Standards and Technical Committee is attached.

I agreed so completely with the suggestions made in your May 24 letter that I have taken the liberty of copying the letter and including it along with suggestions as to how we might implement your recommendations in the attached material.

I would appreciate any further comments and thoughts you might have concerning these non-mandatory work practices.

Very truly yours,
