A That is correct.

Q Now, sir, I know it was a while ago and there were a lot of lawyers shooting questions at you, but do you remember testifying at your deposition that it was close to nine to ten months?

A It could have been nine to ten months, but the job ran for a year. I might have only been there nine to ten months. Like I said, I was off and on.

Q All right. Fair enough.

You mentioned that Kaylo was used there?

A Yes.

Q Can you tell the jury who manufactured the Kaylo at that time?

Do you recall?

A I wouldn't know.

Q Am I right that the pipecoverers who were responsible for putting up the Kaylo, they were also responsible for insulating the ductwork?

A Yes.

Q And they would do that with fiberglass; is that right?
