Asbestos and Asbestosis

Mr. George T. McCollough

Mr. Edward Burckhardt

Mr. James H. Moorman

PLAINTIFF'S
EXHIBIT
BASF-6

In accordance with your request, Mr. Moorman contacted me today. He, Ed Burckhardt, and I discussed the subject of asbestos and asbestosis today.

I am enclosing a copy of my memorandum to George H. Baker of June 9, 1966. I am also enclosing a copy of a literature summary on asbestosis, covering the period 1961 to 1965, and a copy of a recent article entitled "Effect of Asbestos Dust Inhalation on Lung Function".

Please be assured that the Medical Department is aware of the existence of asbestosis and will submit a report of its findings after the investigation has been completed.
