

TO: Mr. D. B. Humphrey, Roofing Sales Manager, Chgo. #142  
DM: Mr. J. W. Bostwick, Works Manager, East Chicago, Ind.  
CT: Direction sheets ACR-7 for Asbestos Cement Shingles.

October 26, 1945

Attached is a direction sheet which we put in bundles of Asbestos Cement Shingles. On the back of this sheet is a cut of an Asbestos shingle cutter. The shingle cutter pictured is of the old type and is not the present model we are shipping. It is suggested that the next time the direction sheets are revised, that a new cut showing the present shingle cutter, be substituted on the present direction sheet.

We have an order in now for direction sheets, and we will be ordering again in about 60 to 90 days.

J. W. Bostwick  
Works Manager
