

The use of carpeting in automobiles is almost 100%. The modern step-down floor designs have obsoleted the broom for cleaning this carpet. . . A vacuum cleaner is a "must." The heavy use of carpeting, both indoor and outdoor type for commercial use also demands a good vacuum cleaner. Potential customers are many: service stations, service centers, car dealers, garages, car washes, churches, bowling alleys, business places, manufacturing plants, etc.

A. HEAVY DUTY PORTABLE VACUUM CLEANER
