LEAD HYGIENE and

SAFETY BULLETIN

No. 129

To the Members of the Lead Industries Association

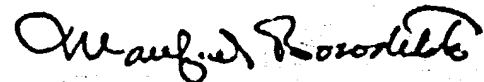

LEAD HYGIENE CONFERENCE

Herewith is a preliminary notice and program of a Lead Hygiene Conference which is to be held at The Drake in Chicago on Thursday and Friday, November 6th and 7th, 1958. The speakers listed are all recognized authorities on their respective subjects, as will be those still to be invited.

As the discussion following the delivery of such papers is often of major importance, it is planned to allow ample time for this, and, to insure an atmosphere conducive to a free interchange of ideas, the attendance will be limited to one hundred and fifty persons.

Therefore, to insure the inclusion of those of your organization who will most benefit from attendance at such a gathering, you are urged to fill out and return the enclosed reply card as promptly as possible. It will not constitute a binding commitment, but will enable us to gauge the probable attendance by our members, and thus to estimate the further invitations which may be issued.

The registration fee for member representatives will be \$10., including the luncheons and other entertainment to be arranged. Reservation cards for room accommodations at The Drake will be mailed in September.

Manfred Bowditch
Director of Health and Safety

	Harris, September 1968
1.00 - 11.00	Paid report and discussion
1.00	Lunch
1.00	Duration of the conference

Lunches at 12.00

- 1.00 Summation of the Conference
Thomas L. Shipman, M.D., Health Division Leader,
Los Alamos Scientific Laboratory, Los Alamos, New Mex.

Afternoon Round Table

In the event that there is a call for more extended discussion
of subjects presented at the Conference, an informal round table
will be held in the afternoon. Otherwise, final adjournment will be
at the close of the session.

NOTES:

Attendance at the Conference will be limited to 150 persons. To secure admission, those who wish to attend should send a written request or curriculum, as promptly as possible. Reservations should be sent to the person at the above address as soon as possible to those who have been invited.

Admission will be by bids only. Registration is therefore essential. Representatives of members of the I.I.A. will pay a registration fee of \$10. There will be no charge to invited guests.

All who attend the Conference will receive a printed copy of the Proceedings, the greater part of which will also be published in one of the journals.

To enable distribution of mimeographed copies of the papers at the Conference, manuscripts should be submitted by early October.

Though the subjects of the several papers will be as stated, titles may in some cases be modified.
