INDUSTRIAL HYGIENE PROGRAM MANAGEMENT
ANSWERS TO QUESTIONS FOR PROGRAM MANAGER

1. YES. Each plant area has or is being evaluated (Acetylenics, PVOH, Emulsion complete). Manager, Superintendent, Safety and Hygienist will all have access to listing and evaluation.
2. YES. As each area program is approved, all controls are reviewed and evaluated.
3. YES.
4. YES. YES.
5. YES.
6. YES. As each area is reviewed, the projects are reviewed.
7. G. N. Boyd and B. D. Helms and Area Superintendent
G. N. Boyd - B.S. Chemistry 1972 1972
 APCI Lab Technician 1972-1973 1972-1973
 Chemist 1974-1978 1974-1978
 Hygiene Monitoring 1978-1980
 Hygiene Monitoring and Program 1981-
Plans - 1. Attend one or two hygiene seminars per year
 2. Become Certified Industrial Hygienist
8. RECOMMENDS - Hygienist, Program Manager, Area Superintendent
REVIEWS - Plant Engineer, Plant Manager
IMPLEMENTS - Area Superintendent
MEASURES - Hygienist
HOW - Evaluation and/or monitor
9. NO. Results and raw data are available at plant site for review at any time.
Can be reported if necessary.

Industrial Hygiene Program Management -
Questions To Be Addressed By The Plant Program Manager

1. Does the industrial hygiene program manager have quick access to a listing of all contaminants and stresses that have been and/or should be evaluated?
2. Is there a program for controlling each contaminant or stress?
3. Is the necessary equipment for evaluating the contaminants and stresses available and operational?
4. Do person(s) using the equipment know how to use it? Is it calibrated properly?
5. Are summary analyses by contaminant or stress performed on all previous monitoring?
6. Is there a listing of current industrial hygiene-related projects? Is the status of each known?
7. Who interprets the results of monitoring? What are the person's background/experience/credentials?
8. Who recommends, reviews, and implements controls? Who measures the effectiveness of controls? How?
9. Are the results of all industrial hygiene-related monitoring, to include raw data, reported to the Chemicals Group Manager of Industrial Hygiene?

QUESTIONS FOR M. R. CHMURA

1. Does all your data come from last year's Hygiene Audit? (Yes)
2. Has an effective Industrial Hygiene Program been outlined to all plant Industrial Hygiene Program Managers?
3. Why don't you have a Hygiene Workshop and "get it all out on the table" so that each plant can meet the Group program?
4. Why do you apply the VCI (regulated) criteria to all contaminants?
5. How does our medical surveillance program support our hygiene program?
6. What are we doing to reduce the number of exposures not evaluated? (435 out of 588 for Group)
