Re: Classification of Trades for the Sale of
Asphalt to be Used in Built-Up Roofing Systems

Dear Mr. Wilder:

You will recall a telephonic conference in which you, Ogden Thomas and I discussed whether Ashland Petroleum Company would be interested in establishing a classification of trades whereby one of our common customers, Wimsatt Brothers, would buy asphalt for use in built-up roofing systems directly from Ashland Petroleum Company.

Unless you advise otherwise, I will assume that Ashland Petroleum Company does not wish to sell to entities such as Wimsatt Brothers directly and wishes to maintain its current position with respect to such sales.

Thank you for your consideration in this matter.

Yours very truly,

Francis F. Kethcart
Counsel
