Good afternoon Izzy.

Following up to our conversation last week regarding a meeting with Secretary Wright the week of June 9th. The 11th after 2pm works the best on our side. As a second choice we could do the 10th after 2pm and as a third choice we could do the 9th after 2pm.

Regarding the topic of discussion:

Goldman Sachs recognizes the Secretary's focus on actionable solutions to address the dramatic increase in power generation requirements as artificial intelligence compute and data center development demands grow rapidly. We would like to meet with the Secretary to share our views on structuring alternatives to address stakeholder

Thank you in advance for your support to schedule this time with the Secretary. Please let me know if there is anything else you need for your planning meeting tomorrow.

Good morning Izzy,

I just heard Chris' remarks reflecting on the Three Seas Summit and the nuclear buildout cooperation with Poland - really terrific to see this all in motion and coming in a week where we are all seeing Spain / Portugal work through their electrical grid system issues.

If a call with Tyler Miller on our side would be helpful to provide the voice overlay on the document we filled out please just let us know and happy to chat through it with you.

Cheers
Sal

Can you please fill out the attached meeting request form with a few more details for us to run by our team. I will say April is booked with back-to-back travel so providing dates the first week of May or week of the 19 would be best.

Thank you and have a great rest of your week!

Hi Isabelle,

Hope that you are doing well.

I wanted to reach out to see if we might be able to get a short slot on Chris Wright's calendar to discuss themes we are seeing from our Power / Utilities team at Goldman Sachs on new nuclear development in the context of recent dialogue with hyperscalers and utilities in the US. We would like to visit with Chris on what could be needed to attract financial capital for new nuclear development.

I understand that Chris' calendar must be incredibly busy. Will take your guidance on any slots he may have available in the coming weeks.

By way of background, we know Chris well from the Liberty Energy days.

Thank you very much in advance!

Sal
