FORD					
54-64	All 8 Cyl.	3-6931 [#]			
54-60	All 6 Cyl.	3-6905			

CAUTION: All night operation of ENGINE HEATERS is not recommended for vehicles with alcohol in cooling system. On V type engines a HEADBOLT or FREEZE PLUG heater should be installed in each bank whenever possible.

[#] The element only of models 3-6904 or 3-6931 can be used on Ford and Mercury standard engines 1954-62. This is a fast installation in the waterpump, however, it requires all night operation.
