C. D. Yost - St. Louis

Interviewed Louis S. Miller, Harold L. Smith - Research Chemists.

PLASTICIZERS: Harold Smith and Harvey Cox are still trying to develop some satisfactory hot melt formulations for some of their paperboard and wood lamination projects but, so far, they have not come up with anything satisfactory enough to become commercial.

With Louis S. Miller we discussed his sample request a week or so ago for Aroclors 1221, 5432, DPP and TPP but, of course, the samples have not yet arrived so he hasn't had a chance to do any work on the project that he intends to work on for surface coating applications.
