Re: Agricultural Gypsum
Nitsalberger Fuel Supply Company

THIS COPY FOR

Apparently the 30,000 bags you mention were never actually purchased. Our records reveal that we received a shipment of 5,760 of subject bags on April 6, 1962.

Two carload shipments were made to the subject account; one 60,000# car on April 9, 1962, and one 75,000# car on April 19, 1962. These are the only shipments we have record of.

At present, the plant has 3,060 of these bags on inventory, and we will ask Mr. Davis of Johns-Manville in Indianapolis his plans for reducing this.
