EXAMINATION:

AGE OF CLAIMANT:

33

DATE OF INJURY:

2-13-37

NATURE OF INJURY:

Lead poisoning with pain in the abdomen and numbness and loss of power in the arms and legs. Lead line over right molars lingual surface.

COMPLAINT:

Vomit all the time, ache and cramp. Have headaches.

EXAMINATION:

The claimant is a well nourished and developed colored man assuming a listless attitude during the course of the examination. Romberg is negative. Pupils react to light. Tongue protrudes in the mid-line. Teeth show lack of care. There is some bluish discoloration over the gums, but do not consider it a lead-line. There is no wrist or foot drop. Grip is good. Tenderness is present to palpation over the abdomen and epigastric region.

COMMENT:

The claimant maintains a lethargic attitude with exaggeration. Symptoms are to a large extent subjective. His condition should be rechecked by Dr. Kehoe. Industrial activity is indicated.

OPINION:

Temporary partial moderate low degree for three months. The claimant be referred to Dr. Kehoe for a complete re-examination and opinion.

Respectfully submitted,
