Newburgh, IN 47630

THE LAW REQUIRES that a copy of this
Citation be posted immediately in a promi-
nent place at or near the location of the vio-
lation(s) cited below. The Citation must
remain posted until the violations cited be-
low have been corrected, or for 3 working
days (excluding weekends and Federal holi-
days) whichever is longer.

This citation describes violations of the Occupational Safety and Health Act of 1970. The penalty(ies) listed below are based on these violations. You must correct the violations referred to in this citation by the dates listed below and pay the penalties proposed, unless within 15 working days (including weekends and Federal holidays) from your receipt of this citation and penalty you mail a notice of contest to the U.S. Department of Labor Area Office at the address shown above. (See the enclosed booklet which outlines your responsibilities and courses of action and should be read in conjunction with this form.)

EM NUMBER STANDARD, REGULATION OR SECTION OF THE ACT VIOLATED: DESCRIPTION	DATE BY WHICH VIOLATION MUST BE CORRECTED	PENALTY
The violations described in this citation are alleged to have occurred on or about the day the inspection was made unless otherwise indicated within the description given below. 29 CFR 1910.1001(g)(2)(i): Caution labels were not affixed to all raw materials, mixtures, scrap, waste, debris, or other products containing asbestos fibers, or to their containers, which during any reasonably foreseeable use, handling, storage, disposal, processing or transportation could release airborne concentrations of asbestos fibers exceeding prescribed exposure limits: (a) On the south side of the Ingot Plant Building #134 in the Marinite Keying area, near column A46, a metal can containing scrap marinite dust and debris from a rasping operation is not labeled as a potential airborne asbestos hazard. (b) On the south side of the Ingot Plant Building #134 in the Marinite Keying area, near column A46, a wooden scrap "coffin" containing marinite debris and dust is not labeled as a potential airborne asbestos hazard. These conditions are repeated violations of a standard cited on a previous inspection.	8/1/78	\$410.
29 CFR 1910.1001(h)(2): Asbestos waste, scrap, debris, bags, containers, equipment, and asbestos-contaminated clothing, consigned for disposal, which may produce airborne levels of asbestos fibers in excess of prescribed limits was not collected and disposed of in sealed impermeable bags or other closed, impermeable containers: (a) On the south side of the Ingot Plant Building #134 in the Marinite Keying Area, near column A46, scrap marinite was improperly handled and disposed of in that waste marinite dust and debris was stored in an open metal can.	8/1/78	\$820.

EA DIRECTOR

ICE TO EMPLOYEES - The law gives an employee the right to a representative the opportunity to object to any abatement date or a violation if he believes the date to be unreasonable. contest must be mailed to the U.S. Department of Labor Office at the address shown above within 15 working days (including weekends and Federal holidays) of the receipt by employer of this citation and penalty.

EMPLOYER DISCRIMINATION UNLAWFUL - The law prohibits discrimination by an employer against an employee for filing a complaint or for exercising any rights under this Act. An employee who believes that he has been discriminated against may file a complaint no later than 30 days after the discrimination with the U.S. Department of Labor Area Office at the address shown above.

LOYER RESPONSIBILITIES AND COURSES OF ACTION - The enclosed booklet outlines employer responsibilities and courses of action and should be read in conjunction with this notification.

ITEM NUMBER	STANDARD, REGULATION OR SECTION OF THE ACT VIOLATED: DESCRIPTION	DATE BY WHICH VIOLATION MUST BE CORRECTED	PENALTY
3	29 CFR 1910.1001(f)(1): Initial monitoring was not conducted in such a manner to determine whether every employee's exposure to airborne asbestos fibers is below the prescribed limits: In the Mold Shop of Building #344 Machine Shop, maintenance mechanics work with asbestos-containing marinite board and may be exposed to asbestos fibers released from the marinite. Initial monitoring has not been performed at this operation to determine whether exposure to airborne asbestos is below the prescribed limits.	8/1/78	\$0
4a	29 CFR 1910.1001(f)(2)(i): Proper samples were not collected from the breathing zones of employees when determining exposure to airborne asbestos fibers: (a) In the Ingot Plant Building #134, samples have not been taken for the determination of the 8-hour time-weighted average airborne asbestos concentration on the brickmason operating the Marinite handling room 134-X. (b) In the Machine Shop Building #344, samples have not been taken for the determination of the 8-hour time weighted average airborne asbestos concentration on the maintenance mechanic operating the Marinite Pouting Room.	8/1/78	\$0
4b	29 CFR 1910.1001(f)(2)(ii): The airborne asbestos monitoring schedule was not of sufficient frequency and pattern as to represent with reasonable accuracy the levels of employee exposure to airborne asbestos fibers: (a) In the Ingot Plant Building #134, 8-hour time weighted average airborne asbestos sampling determinations have not been conducted on at least 6 month intervals on the brickmason operating the Marinite handling room 134-X. His exposure may reasonably be foreseen to exceed time weighted average limits, based on short term exposure results.	8/1/78
