Subject: RE: SHS Symposium - Extended Guest List

Follow-up to Thursday meeting:

1) Bruce and I left the SHS Thurs. meeting and called Jerry Rice about the invitation from JCML/Irons and other Chinese colleagues. We told him he had the blessing of the OC, but would he be mindful of Dr. Fu and include a visit with him. Jerry was ahead of us and had already thought of this. He said the signatories on the letter were higher up in the university than Dr. Fu, so any interaction he (Jerry) could manage with the signatories and Dr. Fu should be highly appreciated by Dr. Fu. He is talking to Rich today to get more details....he presumed as we did it is about the disposition of the lab.

We discussed very briefly trying to get the "progress vs. protocols" started before his visit to Shanghai and we agreed after some discussion this is pushing to hard and would require to much coordination.

2) I have two potential folks that can translate Chinese mandarin into English. They both have full time jobs, but I am calling them directly to get their interest. Is the consortium going to pay them or what was the thinking on "employment"? Or did you want a company to pick up the work?

THANKS for bringing the group to B'ville. It is a great place to live and TRULY next year we should shoot for a meeting here during the OK Mozart Festival which is a FUN experience.June 10-15, 2006 (or thereabouts).

Thanks,
Jennifer Galvin

Subject: SHS Symposium - Extended Guest List

Team;

Had an idea on the way home Thursday. What would you think of inviting company representatives to the API Benzene Task Group and the ACC BTX VCCEP (benzene sponsors) to the SHS Symposium? Seems like a way to start building support within our own industry.

Regards,
Patsy
