November 7, 1977

TO: F/Vinylidene Chloride Work Practices Subcommittee
Leroy Pike

SUBJECT: Health and Safety Work Practice Guidelines

Enclosed is the typed and proofed copy of the Guidelines worked on during our October 6, 1977 meeting. Please note that the numerical changes and abbreviations in the analytical method are for conformity with MCA guidelines.

The Staff Counsel, Bruce M. Barackman, suggested that 29 CFR 1910.1017(f)(2) be reproduced as a note for the convenience of the reader. Accordingly it was added to the last page.

A copy of this Guideline is also being sent to the Technical Panel. Final approval is expected at the next meeting, which should be in early December.

Sincerely,

Lucille C. Henschel
