

LEAD INDUSTRIES ASSOCIATION, INC.

202 MADISON AVENUE

NEW YORK 17, N. Y.

September 17, 1962

SUBJECT: LEAD PIGMENTS
TECHNICAL COM-
MITTEE MEETING

To Members of the Lead Pigments Technical Committee:

There will be a meeting of the Lead Pigments Technical Committee of the Lead Industries Association, Inc., on October 23, 1962, in the offices of the Association.

An agenda for the meeting follows:

1. Approval of the minutes of the previous meeting of April 24, 1962.
2. Review of 1962 advertising program.
3. Consideration of 1963 activities.
 - (a) Advertising: Consideration of advertising format to be used and possible subject matter for such ads.
 - (b) Pigments Manual: Should an effort be made to publish this Manual in 1963. (The section "Lead Pigments in Steel Maintenance Finishes" by R.P. Bates is attached for review.) *
 - (c) Lead Pigments Technical Letter: Is there sufficient test data available for a Technical Letter.
4. Field Test Project on Leaded Aluminum Paints - Progress Report.
5. Yellow Traffic Marking Paint.

Should an effort be made to obtain cooperation of a State Highway Department to field test dashed yellow highway edge markings.

Look Ahead with Lead

Lead Pigments Technical
Committee Meeting

-2-

September 17, 1962

6. Calcium Plumbate Paints

Report of tests conducted in Great Britain by the Research Laboratories of the Associated Lead Manufacturers, Ltd.

7. Suggestions and recommendations for future research by the Expanded Research Program of L.I.A.

8. Report on activities of the Steel Structures Painting Council.

9. Non-Toxic Lead Paints

British Patent No. 873917, Associated Electrical Industries Ltd. — Report on this development.

10. New AWWA Standard for Painting and Repainting Steel Tanks. Complete text appears in the August, 1962, issue of the Journal of the American Water Works Association.

11. New Business.

Sincerely yours,

David M. Borcina

David M. Borcina
Secretary
Lead Pigments Technical Committee
