Mr. Clancy E. Jayne
Westinghouse Corporation
18020 South Sante Fe
Compton, California 90221

Dear Mr. Jayne:

Confirming our telephone conversation of June 7, 1972, concerning the incineration of dielectric fluids, we offer a 3¢/pound incineration service for Monsanto PCB fluids delivered to our Sauget, Illinois plant (Dept. 246). The Interteen series is included in this group. We will charge 5¢/pound to incinerate non-Monsanto fluids containing PCB* if sent freight prepaid to our Sauget plant. Fluids containing in excess of 2% water are not acceptable. Also, we cannot handle solids (i.e. sawdust, rags).

We request you use return drums that meet DOT 17E specification (55 gallon drums, 18 gauge minimum, 2 bund head; 5 gallon drums, 24 gauge minimum) to prevent leakage. The outside of the return drums should be free of fluid material and free of leaks.

When you have fluids for return, please contact me at 314-694-2500 as to the fluid type, number of drums and any special invoicing procedure you may require. I will confirm the call by letter and send you the necessary pre-addressed drum return labels which we are using for this purpose.

Thank you for your cooperation. Please feel free to contact me if you have additional questions.

Sincerely,

Paul W. Gann
Project Coordinator
Heat Transfer Fluids

PWG:mv

* Polychlorinated Biphenyls

Blind note: Mr. Jayne said his company had been before the Federal (?) GrandJury twice on the ecology issue and expect to go a third time.
