

1 environment where there was asbestos being released  
2 into the air, you would not have warned workers back  
3 then, would you, about those hazards?

4 A I would have warned -- I may not have  
5 explained each and every hazard, but I would have  
6 changed -- worked to change that environment so those  
7 hazards no longer existed.

8 Q Well, isn't it true, sir, that if you had  
9 been back there at that time, your position is that  
10 what you would have done is you wouldn't have told  
11 them anything because you would not have wanted to  
12 unnecessarily frighten them or affect their  
13 productivity in the workplace?

14 A No, that is a misconstruction of the tone of  
15 the area that you are reading from in that  
16 deposition.

17 MR. HOFFMAN: Well -- Your Honor, if I  
18 can --

19 A We were asked in that deposition what the  
20 current philosophy of that time was, and the meaning  
21 of that conversation was what the current feeling was
