

1           Q     I understand from your testimony that you  
2     presented the results of your research?

3           A     Yes, published studies and presented at  
4     technical meetings.

5           Q     Can you go ahead and describe for the jury  
6     the nature of this research, the test apparatus that  
7     you were using and what you were attempting to  
8     accomplish?

9           A     Well, one piece of apparatus that was used  
10    was called a friction visualization rig which  
11    fortunately we have a picture of.

12          Q     Okay.

13               MR. WILLIAMS: Your Honor, may he step down  
14    again?

15               THE COURT: You may.

16               (Whereupon, the witness left the witness  
17    stand.)

18               BY MR. WILLIAMS:

19          Q     Come right back over here.

20               Tell us what we are looking at, Mr.  
21    Anderson.
