The materials required
for this work are:

- 2 qts. Lustrelac Undercoating
- 1/2 pt. Lustrelac Almond Green
- 1/2 pt. Lustrelac Chinese Red
- 1 qt. Lustrelac Peking Blue
- 1 each 1 and 1 1/2 inch brushes
- Turpentine, sandpaper

Anyone can play this fascinating game of new beauty at small cost. The rules are simple—a few cans of Lustrelac 4-hour Enamel and a little leisure.

Such pieces as these—the slipper chair, cut down from an ordinary straight chair, the console or an end table, made from a round table; the tea wagon and the small things—can give a new color note to each room in the house with a little Lustrelac. Use Chinese red for the table, almond green for the chair and Peking blue or golden yellow for the tea cart and kitchen accessories. What's left over will do the small things and decorate them. Haven't you already begun to mentally do over your own odds and ends?

While you will enjoy doing the decorative painting around your home, for the larger work you are planning you should consult a reliable master painter. He will gladly use a product of the National Lead Company for the work you have in mind.

A colorful booklet showing just how easy home painting is with Lustrelac is yours for the asking. Just fill out the coupon below.
