Dr. Robert A. Kehoe

Dear Bob:

I am attaching copy of letter received from Dr. Carl Mueller of the Chemnyco, Inc. regarding the I. G. patent on the use of fluorides for stabilizing tetraethyl lead. I will advise you further as soon as the additional information is received.

Yours truly,

J. H. Schaefer

August 18, 1937

Mr. J. H. Schaefer, Mgr.
Ethyl Gasoline Corporation
Manufacturing and Traffic Department
Box 1271
Wilmington, Delaware

Dear Mr. Schaefer:

We are in receipt of your letter of August 16, 1937 regarding the German Patent Application I.54507 IVc/23 (O.Z. 9495) "Verfahren zur Erhoehung der Lagerbestaendigkeit von Antiklopfmittel enthaltenden Benzin" and have asked Dr. Mueller-Cunradi of the I. G. Farbenindustrie Aktiengesellschaft for further information on this subject.

The advice received by Mr. Bevan of your London office from some gentleman of the I.G., that you should write to Messrs. Hutz & Joslin of New York for such information, must be due to some misunderstanding. Messrs. Hutz & Joslin are patent attorneys. They can only furnish information in the patent field, but are not in a position to deal with technical questions.

We shall communicate with you again as soon as we have heard from Dr. Mueller-Cunradi in regard to this matter.

Very truly yours,

CHEMNYCO INC.

C.Mueller
