HOOPER ENGINEERING
DIVISION OF JOHN NORRELL & COMPANY
2055 North Janice Avenue
Melrose Park, Illinois 60160

Dear Mr. Jesuit:

With reference to your letter of April 1, 1970 regarding U.S.D.A. approval for coatings, Du Pont No. 815-8031 Epoxy Primer and Du Pont No. 823-8022 Epoxy White Enamel do not have official U.S.D.A. approval. We have not attempted to obtain U.S.D.A. approval on any of our paint products, however, if needed we will request approval of the above coatings. If approval is requested, we will need to obtain from you a description of how the material is used.

Please contact me if you would like us to take further action.

Yours truly,

W. W. Miller
Toxicity Coordinator
