AROCLOR REPORTS BY MONSANTO - ST. LOUIS

1. Environmental Materials Analyzed by Monsanto for Polychlorinated Biphenyls.
2. Extractability of Aroclor 1254 from Painted Surfaces.
3. Study of the Open Air Combustion of Paper Containing Aroclor 1242.
4. Study of Aroclor Chemical Clean Up Procedures for Use with Electron Capture Gas Chromatography Methods
5. The Partition of Polychlorinated Biphenyls Between Hexane and Various Organic Polar Solvents.
6. Solubility of Aroclor 1242, 1248 and 1254 in Water.
7. Determination of Polychlorinated Biphenyl Residues in Fish from Lake Michigan .
8. Biodegradation Studies - 1st Quarter 1970.
9. Monsanto Methodology for Aroclor Products.
10. PCB Contaminated Milk, State of Ohio, Department of Agriculture, Foods, Dairies and Drugs Laboratories.
11. Chlorine Distribution of Aroclor Products.
12. Study of the Completeness of Thermal Oxidation of Polychlorinated Biphenyls at John Zink Pollution Research.

R. E. Keller

13. [illegible] Factors for Polychlorinated Biphenyls
14. [illegible] Capture [illegible] Aroclor [illegible] Biphenyl [illegible] Gc [illegible] to DDE."
