Greetings,
We look forward to welcoming the APPA delegation. To access the Department of Energy (DOE), please provide first and last name (U.S. Citizens via email) for all

members that will be entering the DOE HQ. Please contact me or Ms. Toye Moore with any questions or concerns. Toye will be assisting with access to ensure a smooth entry to our HQ. Upon arrival the DOE Protocol team will greet curbside (see attached map) and escort through security and to the 7th floor executive suite. Note: please advise if you will have personal security.

Hi Adrienne!

Apologies for the delay. Yes we are all set for 11:30am on June 17th. We actually do not send calendar invitations externally. Adding in our Director of Protocol, Garland Travis, for clearance into the building and arrival instructions.

Ashley-

Just wanted to circle back because I was out of town and didn't see the official invite come through.

Are we all set for 6/17 at 11:30?

Please advise.

Thanks,
Adrienne

Subject: S1 meeting with APPA

Ashley-

It was great seeing you today and we really appreciate your help getting this scheduled. To confirm, APPA leadership is set to meet with S1 on **6/17/2025 at 11:30 a.m.**

A bit from our request and us is below:

APPA is kindly requesting a meeting to discuss the work between APPA members and the work that the electric sector does that directly aligns with Secretary Wright's priorities of grid security, and customer affordability. We would like the opportunity to discuss this work and how we could continue working on these Trump priorities.

By way of background, APPA is the voice of not-for-profit, community-owned utilities that power 2,000 towns and cities nationwide. Public power utilities are in every state except Hawaii. They collectively serve over 54 million people in 49 states and five U.S. territories, and account for 15 percent of all sales of electric energy (kilowatt-hours) to end-use consumers. Public power utilities generally are load-serving entities, with the primary goal of providing the communities they serve with safe, reliable electric service at the lowest reasonable cost, consistent with good environmental stewardship. This orientation aligns the interests of the utilities with the long-term interests of the residents and businesses in their communities.

The members in attendance from APPA would include CEO Scott Corwin, Desmarie Waterhouse, GC/SVP Government Relations, and myself.

Upon confirmation, I'm happy to pass along full names and countries of origin.

Thanks again for all your help.
Adrienne
