Mr. Charles Gatti
American Thermos
Norwich, Connecticut 06360

May 25, 1977

Dear Mr. Gatti:

We are manufacturers of millboard and asbestos paper products as shown in the enclosed folder.

We would welcome an opportunity to work with you on the high temperature millboard plugs frequently used in the manufacture of thermos bottles.

Please contact our sales representative, Mr. R. P. Monsaert, Jr. who can be reached through the address shown below or myself if we can be of service.

Or if you wish, please send Mr. Monsaert a sample, specification, and blueprint covering the part you are now using and we will furnish you with counter samples and price.

Very truly yours,

[Signature]
Joseph E. Brown
Product Manager
