U.S.A.MERICA.

Dear Sirs,

Turner Bros. Asbestos Co. Limited, Rochdale, Lancs.

PLAINTIFF'S
EXHIBIT

JM-1160

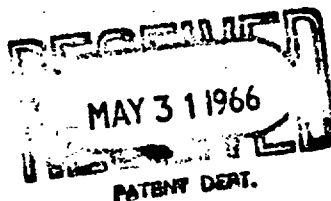

Further to our letter of May 5th, we have now completed a search in the name of Turner Bros. and the other members of the Turner & Newhall Group.

When the search was completed we found that there is no disclosure of any patent or patent application in which Mr. H.C. Gueeler was named as inventor, and we therefore made a further separate search through both patents and applications and also the assignment indexes in this name.

No disclosures were found but possibly Application No. 3170/65 referred to on page 3 of the enclosed report is relevant where the inventor is named as H.C.G.H. Guertler. The card indexes at the patent office are not always absolutely correct since the matter is copied on to those cards from the original documents.

If there is anything further we can do in this matter please let us know and in the meantime we enclose our debit note.

Yours faithfully,

enc.

Lewis W. Goold
