

SAFEGUARD *your* paint jobs.. ...with this dependable **LIQUID DRIER**

...made especially for use with
Dutch Boy White-Lead

● You can't be too careful about drier. Drier that acts too rapidly may cause skin-drying and wrinkling. If it works too slowly dirt and dust collect, discoloring the job.

In order to eliminate all risks the makers of Dutch Boy White-Lead have developed a drier that can always be depended upon...a drier that measures up to the traditional high standard of all Dutch Boy paint products.

The action of Dutch Boy Liquid Drier is neither too fast nor too slow. It is an unusually strong drier of the best known composition—properly balanced to bring about efficient drying. The contents of every container are exactly the same, uniform in strength and uniform in results produced. It will not curdle or discolor the paint.

When you consider that your drier can "make or break" a batch of paint it's always good business to play safe. Get a supply of this reliable product for your next job. Sold in half-pint, pint, quart and gallon cans.

Make Every Job an All-Dutch Boy Job!

In addition to white-lead and liquid drier, the following painters' products can be had under the Dutch Boy trademark:

Dutch Boy Lead Mixing Oil

A special oil for use with Dutch Boy White-Lead to produce white-lead flat and semi-gloss finishes of unusual beauty. Yet this paint is so durable it is used outside as well as inside. For scaling and denesting plaster, wall board, stucco, stone, concrete, brick.

Dutch Boy Colors-in-Oil

For tinting Dutch Boy White-Lead paint. High strength and true color tone insure clear, pure tints. Soft paste consistency gives quick and complete dispersion. No thinning required. All popular colors.

Dutch Boy Linseed Oil

Pure linseed oil of the finest quality, sealed at the factory for your protection. Three types—ray, boiled and Standoli type—the latter being a specially treated, boiled oil that improves gloss and leveling qualities. Also helps to correct troubles caused by adverse weather and surface conditions.

Dutch Boy Wall Primer

Sealer, primer and paint coat, all in one. Seals plaster, wall board and plaster board. Bridges fire-cracks. Hides bluishew. Spreads easily. Covers fast.

Dutch Boy All-Purpose Soft Paste White-Lead

Quick-mixing. For inside flat or outside gloss. Contains pure white-lead, pure linseed oil and a little turpentine—nothing else.
