**Subject:** Save the Date for the Inaugural Co-Optimization of Fuels & Engines Symposium

## Create the Right Fuel for the Right Engine

OCTOBER 9-10, 2018  
PLYMOUTH, MI

# CO-OPTIMIZATION OF FUELS AND ENGINES

Building partnerships for better performance.

Don't miss your opportunity to gain valuable insight into the U.S. Department of Energy's (DOE) groundbreaking initiative to identify the fuel properties and engine design characteristics needed to maximize vehicle performance, while deeply cutting harmful emissions.

The inaugural Co-Optimization of Fuels and Engines Symposium will focus on exploring how co-optimized fuel properties and engine strategies can contribute to long-term solutions for affordable, scalable, and sustainable biofuels and high-

efficiency, low-emission vehicle engines. Registration will open later this month –  
mark your calendars now.
