A I can't remember specifically when it started. I think they just gave us X-rays. I am not sure how it started.

Q When you started working there in 1960, did you receive an X-ray?

A I don't recall. I don't know.

Q At some point during your time at OCF, did they start having annual X-rays?

A Yes.

Q Do you recall when that was?

A No, not really.

Q Was there anything else involved in the physical other than X-rays?

A The doctor would give you a checkup at the plant. I believe that started like once a year like the X-ray.

Q Was that an OCF doctor or someone that they called in from the outside?

A No, it was an OCF doctor, the plant doctor.

Q Do you recall the names of the plant doctors at the Berlin plant?
