Seattle, Washington 98195

Dear Dr. Gellert:

In response to your letter of October 31, Aroclor 1016 is a modified Arclor which is sold to the capacitor industry. Attached is some literature on this product. I have arranged for samples of Aroclor 1221, 1242 and 1254 to be shipped to you and am today requesting that a sample of Aroclor 1016 also be sent to you.

I regret that I know of no source where Aroclor 1232, Aroclor 1248 and Aroclor 1262 may be found.

Sincerely,

W. B. Papageorge
Manager, Product Acceptability
Specialty and Process Chemicals
