Manfred Bowditch, Field Director  
The Baranac Laboratory for the  
Study of Tuberculosis  
Baranac Lake, New York

Dear Mr. Bowditch:

I am returning your Medicine in Industry by Dr. Stern. I appreciate very much your sending this to me so that I might have an opportunity to read it. I really think it is a good presentation of some of the medical problems with which industry is faced.

The longer I am in this game the more I am satisfied that the medical, as well as the law schools, should have a course in industrial medicine which would at least give the students a working knowledge in the practical field of industry.

I trust you will have a pleasant summer. It has been extremely hot here this week, and I have two new members coming in to the Board this week to add to my comfort.

Sincerely yours,

Emma S. Tousant  
Chairman
