Re: Proposed Meeting of Pennsylvania Air Pollution Commission

We have been notified by the Division of Air Pollution Control of the Commonwealth of Pennsylvania that the next meeting of the Air Pollution Commission will be held on November 14, 1966. At this meeting the Commission will consider submitting proposed air quality criteria for various substances, including lead, to public hearing.

This notice is being sent to you for information purposes only, since the November 14th meeting is not public. Your staff recommends that no action be taken prior to this meeting. As soon as the results of the meeting are known, we will inform you together with our recommendation as to action needed, in case a public hearing is announced.

Very truly yours,

Don G. Fowler, *DG*
