

November 5, 1969

TO: W. J. Sheehan

FROM: G. M. Brown

SUBJECT: ACTIVITY REPORT FOR OCTOBER, 1969
RAW MATERIALS DIVISION

Department 201

Wet machine began operation October 20th, will operate four weeks.

Began new method of shut down and cleaning of the wet machine. Will reduce clean up time by about thirty-eight (38) man hours per week or \$3,000.00 annually.

Department 203 and 204

No unusual activity in this area.

Department 205

Philip Carey corrected poor quality problem on Asbestos. Recent material to purchase specification. Approximately 100,000 pounds rejected and returned to Philip Carey.

Crush grinding of perforating dies is feasible, waiting for vendor to notify us when he is set up and we will have dies sharpened.

Department 206

Sander for Victocor 300 Inline relocated to second floor for continuous operation.

Victocor 150 perforating die has been reworked to produce thick Victocor 300.

A Work Order has been written to convert cut-off, when this is complete, we will be in a position to produce thick Victocor 300- 12" wide on a production basis.

Department 207

No unusual activity in this area.
