25 MAY 1953

22nd May, 1953.

The Manager,
Australian Blue Asbestos Ltd.,
WITTENOOM GORGE.

Dear Sir,

FINANCE. Further to the amount of finance available in the near future, which is regularly advised by your Perth Office, we can now advise that Sydney are this week shipping 200 short tons Grade 3 to Johns-Manville Los Angeles, per the "Sonoma". This fibre will be taken from the stocks held by Asbestos Products Pty. Ltd. and will be replaced from Fremantle as soon as possible.

For your information this fibre will be charged out by Sydney at £150 per ton, plus a freight charge of 40 dollars per ton.

Head Office will credit the proceeds of the 200 tons shipped from Sydney, less any charges thereon to "Perth Suspense" and will advise us when this has been done. Therefore, we would expect that this finance will be available to you late next week.

Any small adjustments necessary for the difference in the quantity shipped from Sydney and the replacement quantity shipped to Asbestos Products will be advised later.

Yours faithfully,

Sales Manager.
