ATTN: Mr. Bob Nelson

Dear Bob:

In regards to our lining P/N 606-1007 (Pick Automotive #A97-70-1) which is shipped to Pick Automotive for eventual bonding to produce our 1301-811-003 shoe assembly, it is imperative that the edgecode be ABB208GG.

Despite Abex claim that regardless of the edgecode designation the lining is exactly the same, the requirement of one consistent ABB edgecode will negate confusion at Pick, Warners, and Warner's customers.

Your immediate attention and conformance to this request is appreciated.

Sincerely,

WARNER ELECTRIC BRAKE & CLUTCH CO.
