Subject: 1992 Annual VCM Survey

The 1992 Annual VCM Survey was completed on December 29, 1992. This survey will be used by maintenance to locate and repair VCM leaks and to determine fugitive VCM emissions.

Attached is a list of the four leaks found during the survey. This list has been giving to maintenance and repairs are currently underway.

If there are any questions or comments please contact me at 3561.
