*E-Sub VCM -
TCA study*

Would you please have those individuals involved in the epidemiology study on vinyl chloride under the MCA project with Tabershaw/Cooper review the study population and the Lake Charles list of people provided to Tabershaw/Cooper to see if there were any omissions based on our input. As I recall, Murry Davis and Dr. Lovejoy were involved in this project.

Please reply back to me so that I may respond to the MCA. If you have any questions, please contact me.
