Thomas G. Grumbles

To Paul FETZER

Date 12/7/81

Here is the letter we've been
waiting on. It is now "OK by legal"
to share the results w/ 3M. Let
me know when you're done sampling
and we can work on an appropriate
Report for 3M.

Mr. Tom Grumbles
Director of Industrial Hygiene
Conoco Chemicals Company
5 Greenway Plaza East
P.O. Box 2197
Houston, TX 77001

Dear Tom:

I am happy to hear that the field testing of the 3M #3520 is going well and is near completion. We agreed when the field test was undertaken, that it would be a cooperative venture; 3M supplying the #3520 monitors and Conoco Chemicals doing the testing (against vinyl chloride monomer) according to an agreed upon protocol. It was also agreed (verbally) that you (Conoco) would share the results of the test with 3M if legally possible.

We would like very much to receive a copy of the results and we would like to use the data. However, understanding that you desire to maintain your records of personnel monitoring as confidential, we will agree not to identify the data in a manner that associates it with Conoco Chemicals Company or Conoco operations.

If you are in need of any further information or have any further questions, please do not hesitate to call. I can be reached at 612/733-4404.

Sincerely,

Frank W. Snowden
