

August 24, 1971

Mrs. H. W. Afflerbaugh
1616 Tacoma Avenue
Rockford, Illinois

Dear Mrs. Afflerbaugh:

Thank you for your letter of August 14 regarding your request for copies of the manual, "Lead Glazes for Dinnerware." I am sending three copies of this manual as per your request.

This manual is primarily a research manual concerned with the acid resistance of the fired glaze surface on finished ware. Probably of more benefit will be the publication, "Facts About Lead Glazes for Art Potters and Hobbyists." I am enclosing three copies of this manual.

If we can be of any further assistance, please do not hesitate to contact us.

Sincerely,

Donald R. Lynam
Assistant Director
Environmental Health
