

LEAD INDUSTRIES ASSOCIATION

Graybar Building, 420 Lexington Avenue
New York, N. Y.

August 5, 1936.

To Members of the Lead Industries Association:

The attached special report is compiled from the Refined Pig Lead Stock data published by the American Bureau of Metal Statistics and the Lead Industries Association. It is an estimate of the Pig Lead Stocks derived from secondary and primary sources, making allowance for any duplication in the respective statistics of each organization.

Respectfully yours,

E. M. Pruden
Secretary.

REFINED PIG LEAD STOCKS CLASSIFIED INTO PRIMARY AND SECONDARY SOURCES

1936	Total Refined Lead Stocks (A.B.M.S.)	Secondary Lead Stocks Included In		Total Secondary Lead Stocks	Estimated Primary Lead Stocks (A.B.M.S.)	Grand Total Primary & Second- ary Lead Stocks (ABMS + LIA)
		A.B.M.S.	L.I.A. (Not included in A.B.M.S.)			
Jan. 1	222,306	9,890	8,502	18,392	212,416	230,808
Feb. 1	224,013	8,796	8,812	17,608	215,217	232,825
Mar. 1	225,010	7,921	8,210	16,131	217,089	233,220
Apr. 1	223,388	6,766	8,599	15,365	216,623	231,987
May 1	220,991	6,903	8,941	15,844	214,088	229,932
June 1	229,409	6,919	7,592	14,511	222,490	237,001

Note: This table includes both soft and antimonial grades of pig lead.
