PLAINTIFF'S EXHIBIT

NAR-207

Mr. James L. Thompson, Industrial Hygienist
The Industrial Commission of Ohio
700 W. Third Avenue
Columbus 12, Ohio

Dear Mr. Thompson:

We have checked our employment record as you requested on Mr. Charles H. Lowe. This is as follows:

He was employed by us on April 11, 1940 as a burnt brick wheeler. In this job he unloaded fire brick from our periodic kilns, placed them on a wheelbarrow and wheeled them to storage sheds or to railroad cars.

On May 7, 1951 he transferred to our specialties department. Here he worked as a packager. His work consisted of filling and palletizing 100# bags or 200# drums of our various specialty products. He was employed at this work until September 1, 1961 at which time he retired from our company at age 65.

Yours truly,

NORTH AMERICAN REFRACTORIES COMPANY
